

Storwell Foster Children Bursary Program

A bursary program for students who were part of the foster care system to help them pursue their post-secondary school education.

In response to the growing number of foster children and youth in care that struggle to afford post-secondary studies, [Storwell](#) has developed the Storwell Foster Children Bursary Program. The aim of the Storwell Foster Children Bursary Program is to provide foster children with resources and opportunities that might be otherwise unavailable to them.

The Storwell Foster Children Bursary Program is an initiative that resonates with Banyan Community Service's mission to help support people to build independence, resilience, life skills and connection to community. With the proper tools, these students can work towards building a better life for themselves through the pursuit of higher education.

Storwell offers an annual bursary of \$2,000 to help foster children attend post-secondary schools and to offer a hand up as they make their way forward in life. The bursary application deadline is September 1st. Eligibility requirements and access to the application form can be found at: <https://www.storwell.com/bursary-application>.

This is an annual bursary, students may apply at any time and their application will be put towards the next award cycle. Storwell values the privacy of the applicants above all else, which is why all information submitted on the application form is strictly confidential.
